

'Friends of the Animals' is a registered Charity (No. 1000249). As such we take our responsibilities to our animals very seriously and we always home check with great care. In every case, we are seeking the best possible home for each animal. It is never a case of 'first come, first served'.

Please contact us if you meet the following criteria to offer an animal a forever home:

- You can afford to feed, vaccinate and treat an animal in case of illness.
- You have the time and ability to exercise / train the animal.
- You have no children under 6 years of age in the household.
- There is someone at home for the majority of the day.
- You have a fully enclosed private garden

The Charity is funded purely by donations from the public and (in the case of a dog) we request a minimum donation of £200 for an adoption. This goes towards the cost of: spaying / neutering, inoculations, de-flea'ing, worming, microchipping and an engraved disc.

The Charity can also help with the cost of discounted spaying and neutering for several other types of animals. Please see our Spaying & Neutering page, our [Facebook Page](#), or ring our office on **01983-522-511**.
